

## Single Log-in Page

Until now, there were three different log-in links for the students, parents, and staff members on CoolSIS.

Parent & Student We

	Staff me	mber log-in link was like this.				

From now on, schools will need to put only one log-in link on their websites for the CoolSIS. All types of users will use the same link for CoolSIS. However, the webmasters of the school websites needs to make the necessary changes.

	apex	Username : Password : User type :	Parent (select) Parent Student Staff member	~	
	✔ Log in			Password rec	overy

With this new feature, parents will be able to see their children data in one CoolSIS account, even though if the students are attending different schools in the same school district. Please make sure to make an existing parent as district-wide user to be able to make this happen. If you need assistance on how to make an existing parent as district-wide user by using "Connect to Another Parent" feature, please click on the helpdesk button in your CoolSIS account to find the How to make an existing parent as district-wide user by using "Connect to Another Parent" feature at district-wide user by using "Connect to Another Parent" feature at the helpdesk/Knowledge Base/Main Office.
